

# *Application form for the Presidential Prize for Scientific Research and Technology*

## **1- Category Prize:**

- Communication Technologies.
- Environmental Technologies related to water and renewable energies.
- Biotechnologies related to health, agriculture, Environment, and Industry .

## **2-The applicant :**

- Ministry : .....
- Scientific organization : {
  - Name of the organization.....
  - Name of its president.....
  - Date of its creation.....
  - Its main objectives.....
- Individual application:.....

## **3- Presentation of the applicant :**

- Name and surname of the researcher or name of the research team :  
.....  
.....
- Organization to which belongs the researcher or the research team:  
.....  
.....  
.....
- Address : .....
- .....
- .....

- Field of specialization of the researcher or the research team

.....  
.....  
.....

- Names of the members of the research team, their field of specialty and the last obtained higher education degrees.....

- Last higher education degree obtained (in case of individual candidature)

.....  
.....  
.....

- Main research projects in which the researcher or the research team has participated

.....  
.....  
.....  
.....

***4- Scientific and Technological Output :***

- List of published scientific works (add appendix if necessary)

.....  
.....  
.....  
.....

- List of published books (add appendix if necessary)

.....  
.....  
.....  
.....

- List of scientific conferences that the researcher or the research team has organized (add appendix if necessary)

.....  
.....  
.....  
.....

- List of scientific conferences in which the researcher or the research team has participated (add appendix if necessary)

.....

.....

.....

.....

- Patents registered at national level (name the elements of creation and creativity)

.....

.....

.....

.....

- Patents registered at International level (name the elements of creation and creativity)

.....

.....

.....

.....

***5-Industrial, Economic, Social and environmental impacts of the scientific works (add appendix if necessary)***

.....

.....

.....

- Patents valorized at national and international levels (add appendix if necessary)

.....

.....

.....

- Innovative companies in which the researcher or research team has participated in the creation (specify the number of jobs created)

.....

.....

.....

.....

- Institutions in which the researcher or research team participated in their innovative activities (state the number of jobs created within the institutions)

.....

.....

.....

**6- Contribution in the training of human and scientific competencies**

- Master degrees the researcher or research team supervised (add appendix if necessary)

.....

.....

.....

- Doctoral theses the researcher or the research team supervised (add appendix if necessary)

.....

.....

.....
